Web Programing

# ⓘ About

Welcome to my developer portfolio, I am Hyper Chip(HyperChip11),
I am a web developer and a programmer. I started on 23
December 2020 with block coding on scratch.

I have learned HTML, CSS and Jawa Script. I like to make websites
and games. You can find my projects and experiments on Replit
and github.

# Projects 💡

As a web developer and a programmer, I works on HTML, CSS and JS(Jawa Script). I makes websites, webpages and do experiments on replit. Sometimes I also started learning a new computer language. I make websites by using Bootstrap and W3.CSS . You can find my Websites, Webpages and experiments I am working on you can find on Replit profile, and the completed websites that I have published you can find it on my Github profile. 😄
